

Goal	Purpose
<p>1: Advocate for access curricula for all school programs</p>	<p>To raise awareness of and increase training around accessibility design and construction</p>
<p>2: Increase disability access awareness</p>	<p>To raise awareness of access issues and the tools available to assist businesses, nonprofits, schools, and the community to support changes to the built environment</p>
<p>3: Create training programs for targeted constituencies</p>	<p>To address the lack of opportunity for businesses, nonprofits, schools, professionals in the planning, design, property, construction and other sectors to learn about and to engage with resources around access issues and find support to make accommodation modifications</p>
<p>4: Create and identify revenue streams to fund access needs (subject to increased CCDA staffing)</p>	<p>To identify and secure a revenue stream to support efforts to mitigate accommodation costs and incentivize access compliance</p>
<p>5: Create financial and other incentives for access compliance</p>	<p>To support and encourage access compliance through new and creative incentive programs</p>
<p>6: Explore the development of a state level Americans with Disabilities Act (ADA) Access office</p>	<p>To address the disparate levels of resources and information at various state offices by providing a single access point that can guide people in the process of access mitigation and compliance</p>
<p>7: Advocate to hold authorities having jurisdiction accountable for the built environment (both public and private) to avoid passive non-compliance for architectural and program access</p>	<p>To seek out ways to educate and support public and private entities on their responsibilities for access compliance</p>
<p>8: Maintain data on status of access compliance</p>	<p>To provide relevant information and data on the status of access compliance throughout California</p>
<p>9: Expand methods of identification, obligation, and enforcement of barrier removal in the built environment</p>	<p>To facilitate awareness of current and potential gaps and inconsistencies in policy at the state and local levels</p>
