Rubric for responding to bills presented in legislation

It is important to measure all bills to the established mission of CCDA.

MISSION

The mission of CCDA is to promote disability access in California through dialogue and collaboration with stakeholders including but not limited to the disability and business communities and all levels of government.

In order to achieve this mission CCDA is authorized to act as an information resource; to research and prepare advisory reports of findings to the Legislature on issues related to disability access, compliance inspections and continuing education; to increase coordination between stakeholders; to make recommendations to promote compliance with federal and state laws and regulations; and to provide uniform information about programmatic and architectural disability access requirements to the stakeholders.

VISION

In its Five-Year Strategic Plan (December 2014), CCDA, together with key partners, adopted a vision statement to reflect the ideal future state when the agency's mission is accomplished.

*An accessible, barrier-free California =
Inclusive and equal opportunities and participation for all Californians.*
